HeadHi is proud to present a series of events interconnecting art & nature this Summer 2018 in the Rockaways, a multicultural neighborhood by the sea in Queens, New York located just outside the heart and buzz of the big city.

HeadHi's first season will kick off with an art exhibition by the artist Mösko. Called "De noche / At night", the show features a series of surreal, nocturnal paintings of the beach created between 2016 - 2018. The paintings evoke the exciting yet mysterious feeling of being in nature in the dark as well as an unknown future we are experiencing with our climate today.

During the exhibition, visitors can access materials about the ocean, wild life and climate change from local groups working on conserving our fragile ecosystems in beautiful New York City.

Mösko is a New York based self-taught artist, environmental advocate and surfer. His work has been exhibited at El Museo del Barrio (New York, NY), Museo Rufino Tamayo (Mexico City, Mexico), The First Biennial Art & Architecture of the Canary Islands (Tenerife, Spain), and Puerto Rico '02 En Ruta (San Juan, Puerto Rico).

HeadHi is a state of mind.
